

## **Tomas Hedenborg**

Orgalime President

**Tomas Hedenborg** is Group CEO of FASTEMS, a supplier of flexible manufacturing systems and robotics-based automation with a strong emphasis on software.

Mr Hedenborg previously held the position of President and CEO of both Finn-Power Oy (machine tools) and HBPO (front end modules for the automotive industry).

He has a strong background in mechanical engineering, specifically in the automotive and machine tool sector. Having spent half of his professional life in management positions in the R&D area, the last 15 years he has managed companies with high development potential, through times of radical strategic renewal.

Born in Finland, Mr Hedenborg holds an MSc in mechanical engineering from Teknillinen korkeakoulu-Tekniska högskolan.

Other positions:

- Board member of the Federation of Finnish Technology Industries
- President of Orgalime, the European Engineering Industries Association
- Chairman of the Finnish Industrial Internet Forum (FIIF)
